The saloon has been notified that we will be there after the ride. Hadley volunteered to contact Cycle Gear, Browns Cycles, Tim Pilg @ Beta and Herb @ C & H Cycles about prizes. It was decide to continue to record that riders finished for safety reasons. We also discussed how many riders we could expect. It was decided to make it a recreational ride with no accounting for finishing position. If riders decide amongst them selves to see who can get to the end first we could not control that. The "ride" will start at Navajo Flats and run backwards 2-3 laps We also discussed that the trophy needs to be updated with all of the old finishers for the past. Dennis was going to reach out to some of the older guys to see if they have any memory of who won when.</p>	Group
<p>Website Tom needs content. Not just pics of guys riding but also names and write ups of club events. Reports on club rides. Up coming rides and other club info that members can learn about from the website. Creating return viewers. Its all about the clicks!</p>	Tom
